Mr. Ward T. Bower,  
Bureau of Fisheries,  
Washington, D. C.

Dear Mr. Bower:

I overlooked handing in the inclosed notes touching on fishery problems in southeastern Alaska. I do not flatter myself that they merit serious consideration, but the ideas there expressed have been holding in my mind for some time and some of them were reduced to writing some months ago. They do, however, represent my deep convictions on the subjects discussed and I want to permanently record them.

Yours very truly,
